

ALLADI AMULYA

MERN Stack Developer (React.js | Node.js | Express.js | MongoDB)

Hyderabad, India | +91 9032156344 | alladiamulya5@gmail.com
portfolioamulya.netlify.app | github.com/amulyaalladi | linkedin.com/in/alladiamulya

PROFESSIONAL SUMMARY

MERN Stack Developer with 3+ years of software engineering experience building responsive, full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in RESTful API design, JWT-based authentication, state management, and performance optimization, with a track record of cutting processing times and accelerating data retrieval through targeted backend and API improvements. Experienced integrating third-party APIs and AI utilities to deliver seamless, scalable user experiences.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL

Frontend: React.js, Redux, Tailwind CSS, Responsive Design, State Management

Backend & Database: Node.js, Express.js, RESTful APIs, JWT Authentication, MongoDB, SQL Server

Tools & Platforms: Git, GitHub, Postman, Brevo API, Visual Studio Code, Agile Development

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern | Small Fare

Hyderabad, India | Jul 2026 – Present

- Engineer cross-stack architecture using React.js, Node.js, and MongoDB, integrating third-party APIs to optimize deployment workflows and cut processing times by 20%.
- Design modular user interfaces and structure backend MongoDB database schemas, improving data retrieval speeds and application stability.
- Optimize RESTful API performance, resulting in 30% faster data retrieval.
- Implement JWT-based authentication and secure session management to strengthen client-side data protection.

Software Engineer | Sitel

Toronto, Canada | Jun 2021 – Jan 2023

- Developed high-performing single-page web applications using React.js, Java, JavaScript, and SQL Server, maintaining robust version control via Git.
- Built modular, reusable UI components that boosted frontend responsiveness by 40%.
- Integrated third-party APIs, improving user engagement by 15%.
- Maintained clear architectural documentation and collaborated across cross-functional teams to resolve critical bugs and improve cross-browser interface consistency.

Associate Software Engineer | Tech Mahindra

Hyderabad, India | Apr 2019 – Feb 2020

- Participated in code reviews and Agile/Scrum development workflows, delivering maintainable software modules on schedule across sprint cycles.
- Collaborated with design and QA teams to test, refine, and release scalable frontend updates.

Network Analyst | Tevel Cyber Corps

Chennai, India | May 2018 – Apr 2019

- Monitored network security protocols and analyzed system performance to identify and resolve critical connectivity bottlenecks, maintaining uninterrupted uptime.

PROJECTS

Notes App

portfolioamulya.netlify.app

- Built a full-stack note management app with React.js, Node.js, and MongoDB, featuring JWT authentication, LocalStorage state persistence, and full CRUD capability.

Expense Tracker

portfolioamulya.netlify.app

- Developed a financial tracking web tool using React.js and Express.js to log daily transactions, calculate dynamic budget summaries, and visualize spending analytics.

News Portal

portfolioamulya.netlify.app

- Engineered a responsive news aggregator fetching real-time global news via external REST APIs, featuring category-based filtering, search functionality, and optimized page load times.

CERTIFICATIONS

- Full Stack Development Course with AI Tools (7 Months) | GUVI / HCL, Issued August 21, 2026

EDUCATION

B.Tech in Information Technology | JNTUH CEJ, Karimnagar

Graduated: 2018
